BCR-162R (soya-maize oil blend)

DECLARATION OF CONFORMITY and ORIGIN:

To whom it may concern:

- The raw material employed in the processing of the certified material BCR-162R was vegetable oil (soya and maize oils), provided by Vandemoortele, Belgium (for more details please contact IRMM).
- Further processing (blending) and filling (under inert gas) took place at our premises. Based on the available information and knowledge any infectious danger resulting from an exposure to the material can be excluded, because of the treatment process applied.
- The material has not been exposed to or inoculated with any livestock or poultry disease agents exotic to the United States or the EU.
- The material did not originate from a facility where work with exotic disease agents affecting livestock or avian species is conducted.
- The material is not antisera.
