ERM-BB185 (elements in bovine liver)

DECLARATION OF ORIGIN

To whom it may concern:

- The raw material employed in the processing of the certified reference material ERM-BB185 comprised of ca. 90 kg of bovine liver provided by NORENCA NV (Geel, Belgium).

- The bovine liver powder was fully processed and bottled at JRC Geel site. The preparation included various steps for freeze drying, milling, sieving and mixing to obtain a bovine liver powder. The material is intended for laboratory use only.
